Greetings all! We have been very busy at ERVC, and there is still more to be done. I am sorry to report that we were not awarded a grant by the DC office on Aging which we submitted on January 6. We were asking for funds to support our subsidized membership efforts. We plan to move forward with this program; however, it may be delayed somewhat while we raise the funds to support it. The good news is the Board approved the East Rock Creek Village, Inc. **FUTURE FUND**, and they will be the first contributors which demonstrates our commitment to the organization and its goals. The FUTURE FUND will serve as the conduit for raising money for subsidized members and long-term sustainability. I invite you to make a donation to the FUTURE FUND today.

Warm Regards - Gloria

On February 22, 2017, ERVC invited community organizations, civic groups, individuals, religious institutions and ANC commissioners to meet with us and join together as “Partners for Seniors.” We received an outstanding response and will be meeting quarterly to discuss common goals and ways to collaborate.

Among our guests was Vicky Davis, President of Urban Atlantic, one of the prime developers of The Parks at Walter Reed. Vicky gave a brief overview of the progress to date on the development.
